Tailored Tests - Never Give the Same Exam Twice!

- Create a personalized assessment for each individual using *Question Bank Categories* and the *Randomize* setting:

- Set ClassMarker to add randomly selected questions from specific categories in your Question Bank so each time the test is taken, a different set of Questions is displayed.

Control How Tests Are Distributed

Want to control how you distribute your tests to users? No problem. ClassMarker allows various levels of control over users take your tests.

- **If you want speed and flexibility, send a master link** to your users in seconds. For extra security add password protection to your test links to restrict access only to trusted users. This is what we call "**access lists**".

- **If what you need is maximum control** over how your tests are taken, use the **Group Registration feature**. You can register users yourself or let them set up their own username and password.
Instant Results

Say farewell to grading stacks of papers. ClassMarker's automatic grading ensures instant, easy-to-interpret results and statistics for you and your test takers.

- Results are collated **in real-time and automatically graded**.

- Get results analysis by **test**, **group or link**, **question category**, or **test user**.

# Optimal Exam Experience = Better Results.

ClassMarker tests are **simple**, no matter your technical ability. Exam takers benefit from a user-friendly interface, with exams neatly organized for easy navigation.

- **Limit the number of test attempts** allowed per user, or implement an absolute number.

- Use the **save and resume** feature for longer exams, or require exams are completed in one sitting.

- **Set a common password** for exam takers.

- **Allow users to bookmark questions** - so they can revisit questions during the Test.

- **Display instant review and feedback** after each question.

- **Use time limits** to test for knowledge and agile responses. The timer stays visible throughout the test to help your test takers.

What is the capital of Australia?

- ⦿ Sydney
- ◯ Auckland
- ◯ Canberra

Feedback
Not quite. Although most people think it's Sydney the capital of Australia is Canberra.

Create Custom Downloadable Certificates

Instantly create certificates from a range of beautifully designed templates or upload your own.

ClassMarker's powerful certificate editor allows you to:

- Drag-and-drop text and images anywhere on certificates.

- Choose multiple font styles and sizes.

- Dynamically include the test taker's name, test name, test score and test date.

- Select different date display formats.

- Add your signature.

- Choose from portrait or landscape-orientated certificates in A4, letter or wallet sizes.

- Save time by applying custom certificates across multiple tests.

Workflow And Account Management

Have to manage lots of users? CM allows you to manage team access to your account so several team members can take care of your workflow.

- Using **assistants** for your ClassMarker account helps you get things done faster and efficiently.

- And don't worry if you have sensitive user data to manage, ClassMarker allows you to **set access permissions for each assistant**.
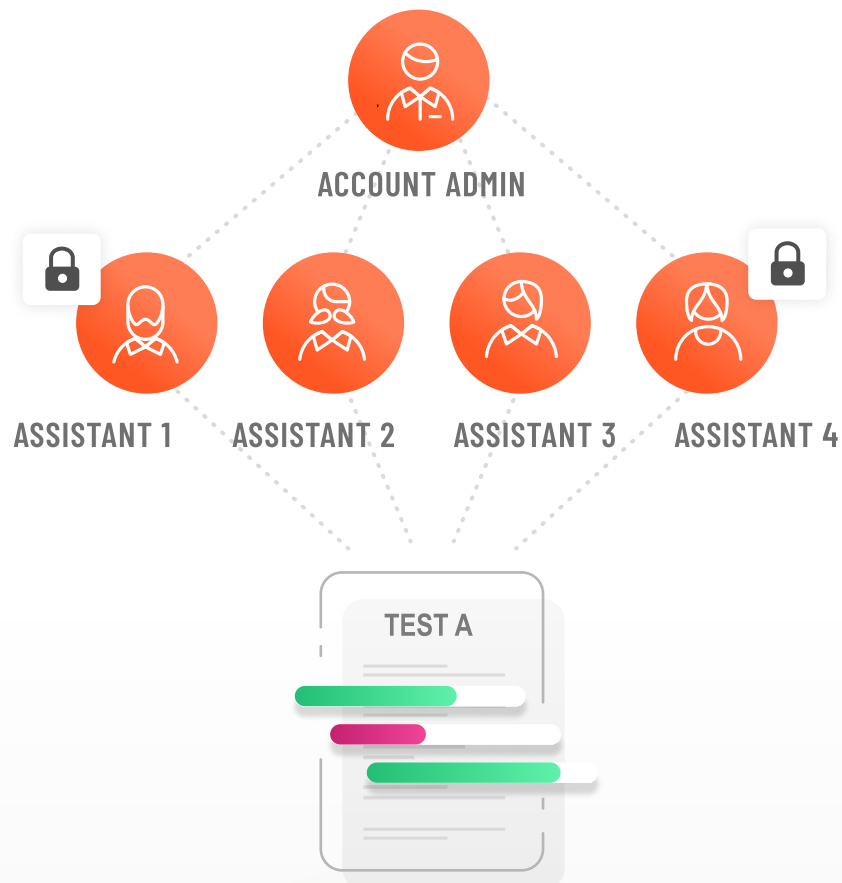

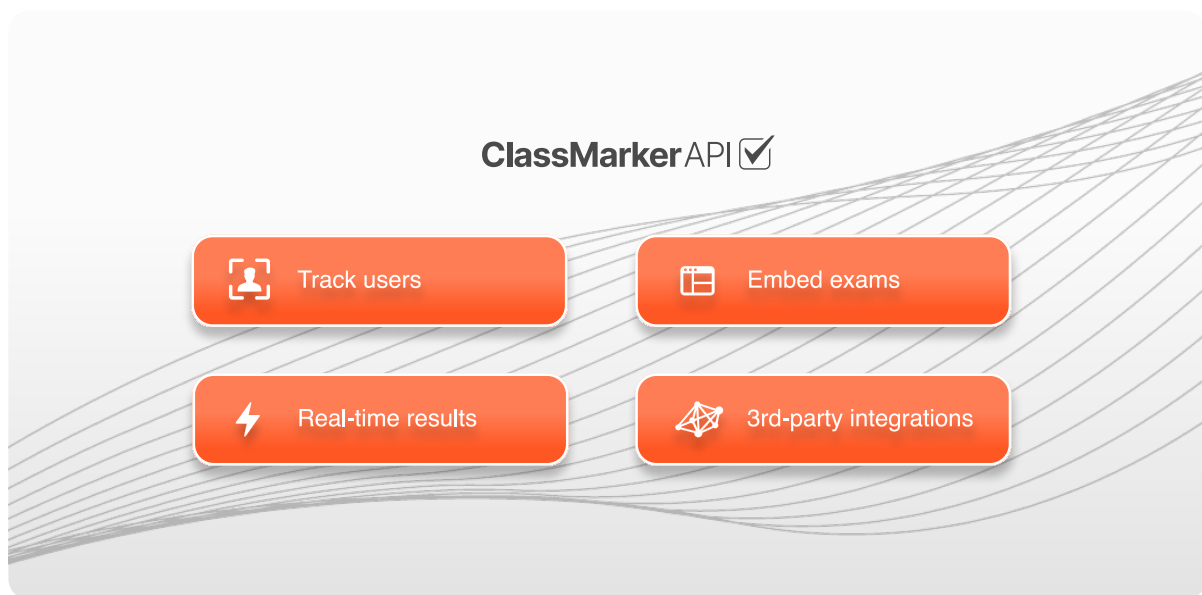

ClassMarker is The Ideal Quiz Maker For Developers

API and Integration Options

Use our Online Testing API to integrate quiz maker with LMS or CRM software, customize your integration and manage your exam data.

The API also allows you to extract exam results automatically back into your system.

See **ClassMarker integration documentation** for more information.

Integration Features:

- Integrate user IDs with test results.

- **Embed** exams directly in your Website.

- Retrieve exam results in real time.

- Pre-populate user names and emails.

- **Track users** by their unique IDs.

- Control access with **API-controlled** access lists.

- Integrate with third-party services using **Zapier.**

Your Data is Secure

Rest easy with our robust security measures, safeguarding the integrity and confidentiality of your assessments:

- Online quizzes and data delivered over secure **HTTPS/TLS protocol**.

- Test data kept private with **24/7 monitored** high-security enterprise-level hosting.

- **Password-protected**, traceable test access.

- Up-to-date servers with the latest security updates.

- **GDPR**, **CCPA**, and **NY Ed** Compliant (contact us for our Data Protection Agreement).

TLS Secure
GlobalSign

Your Content is Accessible to All Users

Our mission is to make education accessible to everyone. Therefore, ClassMarker:

- Works across all major operating systems, web browsers, and devices.
- Is cloud-based, removing the need to install and maintain software.
- Meets **508 compliance standards** to work with screen readers and magnifiers.

- Desktop: **Windows, Macintosh, Linux, ChromeOS/Chromebook**
- Browsers: **Edge, FireFox, Chrome, Safari, Opera**
- Portable: **iPhone, iPad, iPod touch, Android** and more
